

Integrated Policy

TecWise develops technological innovation with the premise of continuous improvement of its processes, operating throughout Latin America, and committing to providing information and resources for the maintenance and development of its Integrated Management System.

To that end, we commit to:

- Pursue technology domain, ensuring correct application of our products and services;*
- Pursue application domain to meet our clients' needs, seeking their satisfaction;*
- Ensure the safety and integrity of our employees through practices that prevent work-related injuries and illnesses;*
- Promote actions aimed at environmental protection, including pollution prevention;*
- Identify, evaluate, and control occupational risks;*
- Comply with legal requirements and other applicable requirements for the Management System;*
- Continuously improve the performance of our Integrated Management System.*
